I would like to thank JOKER of MAYHEM for giving me this awesome idea of sending out photo albums to one's contacts.

I'm not doing this to lick in order to get high in all charts. I'm simply doing it because I grudge my contacts a little variation from all those demos and cracks released nowadays.

Besides that I also think it's of main importance that you know how your contacts look if you trade with them.

I hope this will give you others a kick to start sending out some (more) photos of yourself, so C'MON!

Signed,

INCUBUS/ANTIC
