# What IS BobMarks?

*"BobMarks V3.1 GOLD puts the best sites on the Web right into your browser!" - The 2Bobs*

BobMarks is a huge library of 2,910 top-quality, carefully researched Web sites sorted into over 360 categories. BobMarks installs seamlessly into either Netscape Navigator or Microsoft Internet Explorer.

You won't believe how much fun—and how powerful—it is to have *instant access* to 2,910 terrific Web sites: all loaded, sorted, and just a mouse click away!

## How does BobMarks work?

If you use Netscape Navigator, the idea is to merge BobMarks into your existing "bookmark" file.

If you use Internet Explorer, BobMarks will automatically add new BobMarks folders and links to your MSIE Favorites list.

## What kinds of Web sites does BobMarks contain?

Take a look at all the [categories](#): Investing, Education, Research, Entertainment, Food, Art, Music, Government, Sports, Science, Shopping, Movies, and on and on and on... you name it and BobMarks has it.

Or just take a look at the [Big List](#) itself—the entire list of 2,910 Web sites in **BobMarks V3.1 GOLD**. **And BobMarks contains NO links to sex- or violence-oriented sites.** (Please note our [disclaimer](#).)

## What if I already have a bookmark file?

If you're starting with a solid bookmark collection of your own, you'll find that BobMarks fills your collection out and supercharges it! When you add on BobMarks' 2,910 links and 360+ categories, you boost your bookmark collection into a powerful, at-your-call Web Site Library.

And if you *don't* have a bookmark file to begin with, BobMarks make a great bookmark collection all by itself.

### **What will happen to my existing bookmarks?**

Nothing will happen to your existing bookmarks at all. A new folder labeled **BobMarks V3.1 GOLD** will appear among your own bookmark folders. Click and open up 59 folders, 310 subfolders, and 2,910 new links!

You can easily add or delete links too, so your BobMarks will soon grow to become as individual as you are. In fact, we've included an extra folder called *My Favorite Bookmarks* for you to store new entries until you've had a chance to sort them.

### **Can I remove BobMarks links or categories I'm not interested in?**

BobMarks is very easy to customize. If you use Netscape Navigator, just open the "Bookmark" window (<Ctrl>B), select the link or folder you want to remove, and hit Delete. Netscape has published more on this at their [Help Site for Netscape Navigator](#).

If you use Internet Explorer, open the Favorites menu. Then, select a link you want to remove, right-click on the link, and then select Delete. The Internet Explorer Help file explains this fully, and Microsoft has published more on how to manage Favorites at their [Tips and Tricks for Internet Explorer](#) site.

### **Does BobMarks contain a lot of dead or missing links?**

BobMarks is checked bi-weekly to verify links and remove dead ones. Of course, the Web is constantly changing, and sites come and go, but the 2Bobs work hard to ensure that BobMarks stays fresh.

### **Can BobMarks be uninstalled or removed?**

Yes, easily. You'll find complete uninstall instructions [here](#).

### **What about all the other ways to find Web sites?**

You can use search engines, "gateway/portal" sites, even type it in yourself from magazines, but in every case, [BobMarks is better!](#)

Besides, why go through all the bother? BobMarks is a ready-made library of selected, tested, and sorted sites—the most useful, most essential Web sites that the 2Bobs could find.

### **Can I be certain that BobMarks is safe to use?**

Yes, BobMarks is completely safe to install and use. There are no viruses or macros of any kind in any version of BobMarks. And it's guaranteed to work in the Year 2000 as well. :-)

## So how do I get BobMarks?

For a limited time, we're offering **BobMarks V3.1 GOLD** Essential Web Site Library for just **\$6.95**—an incredible value for all you get! By using your credit card, you can [download and install](#) your own copy right now!

Your credit card information is exchanged in the Highest Grade (RC4 with 128-bit secret key) Security Area currently available. 

Your personal information is absolutely **SAFE**. And BobMarks is backed by the [American Express Online Purchase and Fraud Protection Guarantee](#).

## And who are the 2Bobs?
